

COLD RECEPTION IS GIVEN HUGHES "DRY SHIP" PLAN

Foreign Powers Not Likely To Agree To Proposed 12-mile Limit.

CLAIM U. S. PLACED SELF IN DILEMMA

Powers Also Contend That America Doesn't Need To Enforce Law.

Washington, June 14.—Secretary of State Hughes' proposal to solve the dry ships' dilemma by extending the three-mile limit to 12 miles has been accorded a distinctly cold reception by the foreign powers concerned, it became known today.

While officially speaking the proposition is now being "carefully considered" by the foreign offices in London, actually there is very little likelihood that the treaties proposed by Secretary Hughes ever will be undertaken, according to high diplomatic opinion in Washington.

The attitude of the world powers as gleaned from diplomatic sources, apparently may be summed up as follows:

"Why should we 'scrap' an important part of international law that has existed for ages simply in order to help the United States enforce a domestic law which we do not approve of and never had any sympathy for?"

French Resentment

It was pointed out today that French resentment against the American prohibition law has always been keen—not only on the part of the French government, but on the part of the French people as well. The wine industry is France's greatest industry, and the American market was her greatest market after the collapse of Russia. French public opinion would not sanction the proposition, even if the French government were so inclined, it was said here today.

Great Britain and British public opinion is to a very large extent the same, as indicated by Britain's refusal to discuss extension of the three-mile limit and by the progress attained by a bill now in the house of commons, making it compulsory for ships entering British ports to carry liquor.

The foreign governments also take the view that the dilemma in which the administration finds itself with respect to the dry ships ruling is only one of its own manufacture. They contend that the administration does not necessarily have to enforce the dry law, affecting foreign ships, as literally as it is attempting to, and they back up this contention by citing the decision of the United States supreme court itself.

They contend that the supreme court did not lay a mandate upon the executive branch of the government to enforce the Volstead law to the letter within American territorial waters, but only held that the government could enforce it, if it so desired.

GOLF MEMBERSHIP WILL BE CLOSED

Contract Let For Porch On Clubhouse; New Greens Chairman Named.

Membership in the Salem Golf club is increasing so rapidly that it will be closed soon, officers announced Thursday following a meeting at which four new members were received. Committee reports showed excellent conditions at the grounds.

President W. H. Dunn appointed Lee Atkinson chairman of the greens committee to succeed A. B. Haslam, who expects to remove to Pittsburgh soon. The contract for building a porch on the clubhouse was granted to E. L. Kille.

COUNTY VOITURE TO MEET FRIDAY

A meeting of Columbiana County Voiture No. 273, La Societe 40 Hommes et Eight Chevaux will be held at Leetonia Friday night in the American Legion rooms.

Very important business will feature this assembly, and details concerning the purchase of new equipment will be brought up for discussion.

A meeting and initiation will be planned for Wellsville at this time and this event will probably be arranged for July 1.

The membership of the county voiture is rapidly growing and ten new members were initiated in East Liverpool last month.

Turkey Sends Troops To Bulgar Frontier

Constantinople, June 14.—Communication between Turkey and Bulgaria was cut off today. Turkey is sending troops to the Bulgarian frontier as a precautionary measure.

New Evidence In Death Of Nurse

Helen Blossom Martin, New York nurse and secretary to a physician, who was strangled to death by Eleugia Lazade, a Filipino servant in the physician's household. Later the Filipino was arrested as he sought to throw her body into the river. It is revealed that the nurse was the occupant of a "love nest" maintained for her by a millionaire shoe manufacturer, a married man, and that the Filipino killed her for jealousy.

Franklin Square To Receive Hundreds At School Reunion

Program Is Announced For Big Gathering Saturday, June 23.

Franklin Square, June 14.—The annual reunion of teachers and pupils committee in charge of the second of the Franklin Square school Saturday, June 23, on the school lawn are enthused over the arrangements of a program that will surpass any previous like event held in this vicinity.

More than 500 visitors enjoyed the day last year and indications are that a larger crowd will be in attendance this year. It is urgently requested that as many as possible come in the morning which time can be spent in renewing old acquaintances and the meeting of friends.

At noon there will be a picnic dinner and ample table arrangements will be provided. Also a refreshment stand will be arranged for on the grounds. Coffee will be supplied free.

There will be lots of music as the Leetonia band of 20 pieces has been engaged. Old time songs will be sung by the Aeolian male quartet.

The following program will be given:

10 a. m.—Music, Leetonia band; 10:15, horseshoe pitching contest; 11:30, picnic dinner.

1:30 p. m.—Assembly; music, Leetonia band; welcome address; music, Aeolian quartet; short talks by former teachers and pupils; music, Aeolian quartet.

2:45 p. m.—Sporting events and band concert. Prizes will be given the winners of the contests.

Friends and patrons as well as former teachers and pupils are cordially invited to pack lunch baskets and

AUTO HITS WOMAN, TEARING OFF SHOE

Lisbon, June 14.—Mrs. Mary Kelsch of Beaver st., had a narrow escape from serious injury when she was struck by an automobile on North Market st. Thursday morning.

Mrs. Kelsch was crossing the street and seeing the car coming she stepped back. The driver became excited in trying to avoid her and turned the wrong way. Mrs. Kelsch to avoid being struck threw herself forward and one of the wheels passed over her left foot, tearing off her shoe. Her foot was badly bruised.

The occupants of the car bought Mrs. Kelsch a new pair of shoes and proceeded on their way.

Dairy Students Here On Inspection Tour

Twenty students in the agricultural school of Ohio State university, traveling in five automobiles, passed through Salem Wednesday evening, after inspecting dairy farms near Leetonia.

The students, under the direction of Prof. Ert of the dairy department of the school, are making a 1,200-mile automobile tour through Ohio, West Virginia, Pennsylvania and New York to collect data pertaining to dairy farming in the four states.

Banners telling the purpose of the trip are carried on the five machines. The young men camp along the roadside at night. The trip is to last two weeks.

FRENCH STANDING ARMY SAFEGUARD AGAINST GERMANY

Senator Spencer Says Big Army Will Disband If Reparation Comes.

GERMANY BOOMING, FRANCE HIT HARD

Startling Contrasts Given By Missouri Senator Home From Europe.

Washington, June 14.—The world's largest standing army—800,000 men—serving under the tri-color of France—is an international safeguard against a new world conflagration, Senator Selden P. Spencer, Republican, of Missouri, declared today in reviewing his recent European tour.

Unlike many returning American observers, Spencer said he did not believe France had gone "militaristic." The great French army, he predicted, would be disbanded 30 days after the reparations agreement was signed. Settlement of the outstanding problem, reparations, will bring lasting peace to Europe, he declared.

"France must maintain a tremendous standing army for her national safety," said Spencer. "Americans do not understand her situation. Her country has been ravaged, her industries are at low ebb. Just across the border, Germany is booming industrially and economically. The contrast is startling."

"France maintains her great army not from desire to adopt a military policy but because of the unsettled war conditions throughout Europe. To the people of France, the World War has not yet ended. Her army is her only safeguard against Germany. This is the French viewpoint and my observations abroad lead me to share it."

"If the German reparations question is settled, and assurances are given France for the future, the French army will be disbanded in 30 days. Until Germany does give adequate assurance for the future, the French army is necessary and it stands as a safeguard against a new world war."

Spencer declared Germany and France presented startling contrasts. "In Germany, people are well fed, every shop and factory is running, there is no unemployment, every field and plot of ground is under cultivation and the nation appears prosperous," he said. "In France, fields remain devastated, mills and factories are closed, there is unemployment. You can see the effects of the war everywhere."

Minnesota Campaign Approved By Harding

Washington, June 14.—President Harding this afternoon approved the plans of the Republican senatorial campaign committee headed by Senator Moses of New Hampshire for the big political offensive to be staged in Minnesota, prior to the election July 16, when a successor will be elected for the late senator Knute Nelson.

Senator Moses accompanied by Senators Wadsworth, New York, and Pepper, Pennsylvania, also members of the committee, conferred with the president at the White House today and received his personal O. K. of their plans.

Pythians Give Play At Washingtonville

A play entitled "A Lesson in Friendship" was ably presented by members of Salem lodge No. 142, K. of P., Wednesday evening at Washingtonville at a public meeting under the auspices of the Knights of Pythias there. It was well received. Bernice Snelvel, this city, contributed solo dances to the program. She was accompanied by her mother, Mrs. Charles Snelvel. Following the program dancing entertained. Fifty-one people were in the delegation from Salem.

Conduct Clinic For N. Waterford Babies

Dr. T. T. Church, Salem's health commissioner, was summoned to New Waterford Thursday where he assisted other Columbiana county health officials in conducting a clinic for New Waterford children.

The clinic was held under the auspices of the county health department.

Alleged Intoxicated Driver Is Arrested

Charged with driving an automobile while intoxicated, L. W. Skiles of Alliance, was arrested Wednesday by Chief of Police T. W. Thompson. He was remanded to the city jail and was later released on bond for his appearance Thursday night before Mayor John W. Post.

Skiles and a companion were said to have been driving in an intoxicated condition over city streets. His car was held by police pending a hearing.

Lisbon Teachers To Attend Kent School

The following Lisbon teachers will leave Saturday for Kent Normal school where they will enter the summer term: Mrs. Maud Steele, Miss Ester Steele, Mary Albright, Katherine Gruber, Grace Todd, Ruth and Mabel Crumbaugh and Laura and Velma McCormick. They will charter a cottage at Brady's lake near Kent and make it their home during their stay at the school.

Seniors On Strike, Refuse To Attend Graduation

Cincinnati, June 14.—With three exceptions, all members of the senior class of the high school at Newport, Ky., went on strike last night refusing to attend their own graduation exercises.

Forty boys and girls refused to go on the stage to receive their diplomas and they and a multitude of friends "gummed" the ceremony by hisses and hoots.

On the stage were two girls, one of them in tears all evening, and one boy who remained only because his father forced him to do so.

The strike arose over a difference with the faculty as to a class "roast" last Monday. Wesley Bowen, delegated by the class to draft a humorous "razz" on the school and teachers, spread it on too thick by a couple of laches, according to Principal C. W. Craft.

Prof. Craft ruled that young Bowen had to apologize from the stage last night in order to obtain his diploma.

The class insisted that the satire was part of the under-graduate activities, along with the class prophecy and history, and asked Principal Craft, who had dealt him a hand.

The ceremony was in a theatre at Sixth and Monmouth sts., but the address to the graduating class was heard only by the trio aforesaid.

Flag Day Message From President

Washington, June 14.—It is the duty of the American people to maintain in this country the things for which the American flag stands," President Harding declared today in a brief address before the National Flag conference of the American Legion.

"We have an obligation quite apart from that of merely expressing reverence to the flag," the president said.

"Let us obligate ourselves further to do always those things which the colors represent us to be."

GIRL STABBED TO DEATH IN QUARREL

Derogatory Remark Passed, Detroit Girl Slays Younger Girl.

Detroit, June 14.—A knife plunged into her heart, Babe Hunter, 18, was slain early today in a quarrel with Evelyn Stalker, 22, according to police. Miss Stalker, apparently unconcerned, is charged with murder.

The young women, both pretty, are said by police to have quarreled over alleged remarks made by each regarding the other's character.

"What are you going to do about it?" Babe finally demanded of Miss Stalker, police state.

A knife flashed in Miss Stalker's hand, according to witnesses.

"This is my answer," she is alleged to have cried as she plunged the knife into Babe's heart. Babe was dead before medical aid could be obtained.

AUTO ACCIDENTS FATAL TO THREE

Uniontown, Pa., June 14.—Three are dead here today as the result of automobile accidents within the last ten hours. Six others are in hospitals seriously injured.

The dead:

Harry Lowe, 24, of Uniontown; Bessie Cruise, 17, of Evensburg; Mary Prybysek, 7, Briar Hill.

One man is under arrest as the result of police investigations.

County Distributes Auto License Funds

The following distribution of the regular payment of auto license fees has been made by Auditor Hamilton to the various towns and cities of the county:

Columbiana, \$285.98; East Liverpool, \$59.50; East Palestine, \$427; Leetonia, \$133.50; Lisbon, \$394; New Waterford, \$54; Rogers, \$18; Salem, \$61.75; Washingtonville, \$24; Wellsville, \$34; Sallineville, \$3. The county's share is \$592.50.

Truck Overloaded, Driver Being Held

C. O. Gardner, Columbiana, was taken to Lisbon Thursday morning by Deputy B. F. Rollins, charged with operating a truck, which was overloaded. Owing to the fact that Judge Lodge Riddle was out of town, the case was continued until his return.

ASK CONGRESS TO PUT PRISONERS TO WORK

Washington, June 14.—Congress is going to be asked to put the 5,500 prisoners now held in the Atlanta, Leavenworth and McNeal Island federal penitentiaries to work at gainful occupations.

Herbert Votaw, superintendent of federal prisoners and brother-in-law of President Harding, is now working out a program for submission to the next congress which will recommend the class and character of prison work together with the estimated cost of plants and machinery.

Work for all the prisoners at the federal prison was urged by Votaw as an adjunct to disciplining in the formation of good habits and as a training for usefulness after the prison term has ended.

Votaw suggested as most desirable shoe factories at Leavenworth, Kan., and McNeal Island, San Francisco, to give employment to the 2,519 men at the former institution and the 502 men at the latter. He said that the 600,000 pairs of shoes needed by the army and navy could be made at these two institutions. He favored extension of the textile plant at the Atlanta, Ga., penitentiary, so that sheets and denims could be made for army and navy use and government hospitals.

CHRISTIAN CHURCH PURCHASES 3 LOTS FOR FUTURE NEEDS

\$10,000 Pledged For Ground Near Church On Ellsworth And Green.

DEFER PLANS FOR ANOTHER EDIFICE

School Staff Hears Report Of Activities; Vacation School Planned.

A number of accomplishments were set forth before a gathering of the Christian church Sunday school staff at the church Wednesday night by the school superintendent, Rev. H. L. Miller.

Perhaps two of the greatest accomplishments of the school during the last eight months were the cradle clinic and lectures given to the cradle mothers and other women, and the pledging of \$10,000 with which the church will pay for the additional ground surrounding the church and comprising a quarter of a city block.

Three lots have been purchased in addition to the ground already owned by the church property. One of these lots has been purchased by the Men's Bible class, another by the Loyal Women's class and a third by the Ladies' Aid society.

The plot is bounded by two alleys, Green st. and Ellsworth ave. There are two houses on the newly purchased ground and one of them, a brick structure on Green st., with some improvements will be utilized for primary school assembly rooms and outside attractions such as scout gatherings, etc. It is planned to "fit up" the first floor of the house for the primary school by installing additional windows to secure better lighting conditions. The men of the church will be asked to donate their services in making certain improvements on the property.

Defer Building Plans

*Rev. Mr. Miller stated Wednesday night that he had no desire nor did he believe that any member of the church desired to go about building a new edifice on this ground at the present time. He said conditions and customs are changing so rapidly that he did not believe anyone knew just what sort of a building should be erected to best meet the needs of the church and that in the future the personnel of the church might be better prepared to suggest the type if building required.

Therefore church building will be deferred until some time in the future. The additional ground will prove valuable to the church when on July 2 the Daily Vacation Bible school will be opened in charge of Mrs. Ross Cay. One of the greatest needs of the children has been an out of door play ground which they will have this season.

The report of the lectures and baby clinic met with the wholehearted approval of the audience. When announcement was made early last spring that a cradle roll baby clinic would be held at the church those in charge feared that the movement would not meet with success. However long before the hour of the examinations, the church parlors were filled with mothers and infants awaiting physical investigation. Thirty-five babies were given thorough examinations.

The clinic was followed by a series of professional lectures by physicians to the mothers on the care and management of their children. A follow (Continued on fifth page.)

MINERAL RIGHTS LEASE ATTACKED

Lease Executed In 1863 Is Basis Of Suit Against Mining Company.

An old lease for mineral rights executed in 1863 by John Frederick to William Mather, is the basis of a suit filed by property owners, who have since acquired part of the original farm, against the Ohio Coal & Mining Co.

The plaintiffs in the suit are H. C. McCammon, former county commissioner, Edgar B. McCammon, Aurel D. McCammon, Sina Atterholt, Mrs. Sue Atterholt, Lizzie L. Deemer and Thomas C. Brinker.

The plaintiffs allege that the lease is a cloud on the titles to their property, that the lease was made with the proviso that it should be in effect if a railroad was constructed to Lisbon through the property within two years after the lease was executed.

The plaintiffs also allege that the defendants have not lived up to the terms of the lease and that the extensive coal stripping operations that have been carried on by them have not conformed with the terms of the lease and for that reason they ask that the lease be declared null and void and that their titles in their property be cleared.

The filing of the suit has aroused much interest. The Mining company has one of the largest coal stripping outfits at work in this part of the state and it is claimed that they have no board of directors and that there is no one on whom a summons can be served.

The Water Project

FOR two years Salem has been waiting patiently for some solution of its water problem. In recent months two or three proposals have been drafted and tentatively accepted, only to be discarded in the search for some plan more logical and still within the reach of the city's pocketbook. City councilmen now have presented that program, one which they have accepted after much careful study and consideration and which has been approved by the state department of health. It is one, too, which the city officials believe merits the support of every citizen not only as the least expensive in consideration of its scope and future possibilities, but as the nearest approach to a permanent solution of the water problem from the standpoint of quantity and also of safety.

These are the two elements which must be given first consideration by the voters who are called upon to pass judgment on the plan at the August primary election. The item of expense is secondary to these only so far as it keeps within the limits of the city's bonded indebtedness. And the project presented by the city council keeps safely within those limits. Salem must have a greater supply of water. The sinking of additional wells will temporarily tide the city over the growing shortage until the new project can be completed, but the city is awake to a realization that it cannot depend indefinitely on its well supply. A surface supply is the only alternative and the city has found a source within easy access of pumping and piping facilities and at a comparatively reasonable cost. The filtration plant will guarantee purity of the water. The new project therefore is logical from the two most important standpoints.

The Cold run project is not a new one, but it has been worked out in detail to such an extent that the city may proceed with its construction as soon as the bonds have been authorized. The North Georgetown plan, while offering a greater supply, was abandoned long since because of its excessive cost. But a drawback more menacing than the expenditure is the legal tangle in which the city might become involved should it adopt the North Georgetown program. The city officials acted wisely in giving this serious consideration.

Now that the adopted plan has been announced in detail, it is the solemn duty of every voter to give every phase careful consideration and to inform himself fully on any points not clear to him or which appear to him to be illogical. The officials have presented their best plan, and if it should be voted down the future of Salem's water supply will be as unpromising as it has been in recent years.

The cost of this undertaking taken in the aggregate—\$300,000—may seem overwhelming. Viewed from the standpoint of what it will cost each property owner—two dollars on each thousand—it seems little enough that should be appropriated to a program of such great possibilities to the future health and growth of the city. To what better advantage could your money be spent? Think it over carefully.

An Outdoor Attraction
THE Moose have announced that an outdoor exhibition will be brought to the city next week under their auspices. It is represented as clean and entertaining, in fact educational. The News trusts that it is all of this. It hopes that this attraction is not a carnival coming under the guise of another name. The Cooper attractions in the past have been carnivals. Perhaps they have sensed the opposition to carnivals and now are presenting real entertainment.

20 YEARS AGO

(Issue of June 14, 1903.)

Mr. and Mrs. Meyerhofer arrived in the city Friday evening from Toledo, to make their home here.

Mrs. Meyerhofer before her marriage Tuesday was Mrs. Laura L. Dorr, Toledo. He is a traveling salesman for the Deming Co.

Nearly 900 people left here this morning for Idora park, Youngstown, to attend the Industrial picnic. The first train ran into a flock of sheep north of Washingtonville. One was killed.

Judge J. A. Ambler and granddaughter, Mary McNab, who are on their way home from Manila are expected to arrive here tomorrow.

Mrs. W. H. Gander and Misses Ella Brian and Mabel Vaughn left Thursday evening on an eastern trip.

William Toot, a former Canfield boy has been appointed a United States ranger on the San Bernardino reserve.

A son of Mr. and Mrs. J. B. McConnor, who reside south of the city, is ill of diphtheria.

C. R. Baker, who has been confined to his home on Chestnut st., suffering from a sprained ankle is able to be at his place of business.

Frank Lease has returned to his home here after a year spent as principal of the High school at Denison. A large platform has been constructed along the Ft. Wayne tracks, west of the station from which milk cans will be loaded.

Paul Francis, three-year-old son of Mr. and Mrs. Paul Redington, Perry st., died very suddenly Friday evening death having been due to convulsions.

In the styles—Tuscan straws for practical purposes still continue the rage. There is a new pale shade of apple green being used in millinery.

TO RESTORE WEBSTER HOME

Site May Be Purchased and Maintained as Memorial to the Eminent Lexicographer.

Plans are now afoot in West Hartford, Conn., for the restoration of the old farmhouse, fast falling into decay, where Noah Webster was born 165 years ago. Repairs already have been commenced by the present owner, H. A. Hamilton, and the task will be carried to completion at his own expense. It is his hope that public interest may be aroused sufficiently to bring about the purchase of the site and its maintenance as a memorial to the eminent lexicographer.

The Webster house is of two stories and a lean-to. There is a long woodshed at the back. It stands upon a little ridge, and looks down from this eminence upon the city of Hartford. Until he was fourteen Noah Webster worked on this farm with his father and brothers. He was determined to go to college, and against the wishes of his father was admitted to Yale in 1774.

His first venture was "Webster's Spelling Book." It enjoyed a tremendous vogue and pupils of the little red schoolhouse studied it almost universally. In 1806 he sat down to compile his dictionary, and at the time of his death still was engaged in the task of keeping his edition in step with the progress and change of the English language.

America's Oldest Coal Mines.

The oldest coal mines in America are those in the bituminous fields near Richmond, Va. In 1700, anthracite coal was discovered in Rhode Island, and, two years later, settlers from Connecticut discovered anthracite in the Wyoming valley of Pennsylvania. The rich beds of the Schuylkill were discovered in 1770. Five years later the government of Pennsylvania floated coal down the Susquehanna to Harrisburg, then known as Harris Ferry, and hauled it by wagon to the arsenal at Carlisle for use in the manufacture of ammunition.

COLOR FOR HOSPITAL WALLS

New York Institution Has Adopted New Idea Which Would Seem to Have Advantages.

The modern hospital has been made about as sanitary, cheerless and uncomfortable looking as it is possible to make it with the aid of white calcimined ceilings, enameled walls, and white enameled iron furniture. In the new Fifth Avenue hospital all this is changed. The walls are delicately tinted in French gray, buff or tan, and the furniture is what we would find in a modern hotel. A great deal of the horror of a hospital is brought about by the idea of being wheeled into an immense operating room, with nothing but operating tables, knives and saws, which are not calculated to distract attention from their own ill, and the patient usually remains in terror until the anesthetic has done its work; but at the Fifth Avenue hospital the patient is taken into an anesthetizing room which resembles a small parlor. It is attractively furnished, and even has a rug on the floor, and there are curtains at the windows. This new hospital has many interesting devices; for example, suites of offices are provided for physicians at the hospital, so that they can see their private patients just the same as they would in their own office, thus being able to keep in touch with the other patients in the hospital. This office enables the physicians to take advantage of the diagnostic facilities of the hospital for their private patients.—Scientific American.

PROVERBS WHICH ONE QUOTES

People Naturally Are Apt to Use Those Which Relate to Their Businesses.

Did you ever notice how provincial and self-centered the world is? Why, we can't hold an ordinary conversation without some hint of our petty business affairs entering in. The very proverbs which we affect, the very bromides of speech to which we are subject, are all directly traceable to our particular every-day pursuits.

Having always suspected this to be true, I one day set about to prove it. In my daily search for Judgelets, I made the rounds of all my friends, engaging them in pleasant colloquy.

Here's the result:

"I'm pleased to meet you," smiled the butcher.

"Suit yourself," said the tailor.

"That's right," agreed the traffic cop.

"And so forth," said the dressmaker.

"That's a dirty shame," observed the washwoman.

"Every little bit helps," philosophized the carpenter.

"That's the long and short of it," retorted the rural telegraph operator.

"Try to keep a stiff upper lip," admonished the barber.

"Yes, I need it," protested the baker.

"I'm not very well posted on that," faltered the bookkeeper.

"These words shall be my last," averred the cobbler.—Alfa Eugene Bye, in Judge.

OBJECTS TO TERM 'MASSACRE'

Author Insists That Custer's Last Fight Must Properly Be Described as a Battle.

Cyrus Townsend Brady, LL.D., in the preface of a volume on "Indian Fights and Fighters," makes a marked distinction between the terms "massacre" and "battle." He says that every time a body of troops engaged in a fight with Indians and the troops were outnumbered or caught at a disadvantage, and the battle was continued until the troops were slaughtered, such an affair was popularly called a "massacre," as, for instance, "The Custer Massacre."

Mr. Brady believes this to be an unwarranted use of the term. Custer, the author points out, attacked the Indians and fought desperately until he and his men were all killed. He calls it a "battle" and not a "massacre." When an Indian war party raided a settlement or overwhelmed a train, or murdered women and children, that, he thinks, was a "massacre." The author says:

"I would like to ask if anyone ever heard of the 'Massacre of Thermopylae'? The Greeks fought there until all save one were killed. The results there were exactly the same as those of the battle of the Little Big Horn, but I have yet to read in history that the Persians 'massacred' the Greeks in that famous pass."

Rush to Diamond Fields.

The biggest rush in the history of the Transvaal alluvial diamond diggings has taken place at Kaalplaats, 50 miles from Johannesburg. Three thousand would-be diggers formed a line 2,100 yards long. A proclamation having been read, a Union Jack was lowered, and the long line of seekers after fortune moved off at the double over a thousand yards of green, undulating country. Young men and old, both British and Dutch, boys and women and girls, surged forward brandishing pegs. There was great excitement around the richest spot, but so vast was the diamond field that there were claims for all and to spare. Within a little while a thousand diggers had begun work with pick and shovel, and some excellent finds were made. So far, diamonds weighing 1,450 carats and valued at \$68,000 have been found at Kaalplaats.

Made It Personal.

A little girl had been taken to church by her Aunt Helen. On returning home her mother began to cross-examine her as to what she had heard.

"What hymn did you have, dear?" she asked.

The little girl's memory failing her for the moment, she turned inquiringly to her aunt who whispered in her ear: "Sun of My Soul, dear."

"Well, what was it?" her mother asked, a trifle impatiently.

"Sun of Aunt Helen's Soul" was the reply that astonished her parent.

Windmills in Place of Sails.

Windmills to drive ships are the product of the French inventions department, an official war agency that has been continued. These windmills are intended to enable countries without coal or oil fields to sail the seas without coal or petroleum. The power of the windmill is transmitted below decks, where it later appears at the propellers.—The Nation's Business.

Dog's Bark Proved Expensive.

The barking of a dog so frightened a flock of 2,000 sheep returning in the dark from the mountain pastures at Freney d'Oisans, near Grenoble, France, that they rushed over a ravine. The shepherd, in attempting to stop them, was dragged over with them, but was rescued, though his condition was grave. Numbers of the sheep were killed.

Good Device for City Vehicles.

English inventors of a storage-battery driven electric truck have equipped it with poles with which it can renew its charge of electricity from overhead wires of street-car lines.

HALF OF MOUNT'S GRADS TO TEACH

Alliance, June 14.—Nearly 50 per cent of this year's graduating class of Mount Union college here will enter the teaching profession, a survey shows. Fifty-two men and women will be graduated at exercises which start Sunday, and of that number, 22 will become teachers. 12 will enter the medical profession, five will become lawyers, one will go into social service work, one into the Y. M. C. A., and one into the Y. W. C. A., one into the regular ministry and two with foreign missionary work and one will be an architect.

This will be the 77th annual commencement at Mt. Union. President W. H. McMaster will deliver the baccalaureate sermon Sunday morning and Dr. C. C. Morrison, editor of the Christian Century, is to deliver an address Sunday night.

Harvey S. Firestone, Akron, president of the Firestone Tire & Rubber Co., will speak Monday at 10 a. m. at the "Recognition Service."

The board of trustees meeting will be held Tuesday, June 19, and Wednesday will be commencement day.

Prof. H. H. Horne, of New York university deliver the commencement oration.

Nickel Night To Be Observed By Grange

"Nickel night" will be observed Friday night at the Willow grove grange meeting. Each member of the grange is requested to bring a nickel and a lead pencil.

The following program has been arranged for the lecture hour of the meeting:

Song by grange.

General topic: "Fruit Trees That Should be on Every Farm."

Grange Sparks—Olive Myers.

"Were Hoop Skirts as Detrimental to Grandma's Health as Short Skirts are to Granddaughters?" Miss Linton.

Surprise number.

Every member should be present.

HAD WEARIED OF OLD SINS

Cook Simply Had to Have Something New to Confess, and She Contrived It.

The cook had committed a capital offense. No matter what. Let us assume that she put soap in the mashed potatoes, and let it go at that. It was a sad duty to dismiss an otherwise fine cook in these days when there is dearth of cooks, but soap in the mashed potatoes was going too far. So the mistress of the house summoned her.

"How came you to do such a thing, Maggie?"

No answer.

"You know better. There must have been a reason for your putting soap in the mashed potatoes. Possibly you were angry?"

"No, mom, I wasn't mad. I just did it."

"I would like to know what your idea was, Maggie?" persisted the employer. "I am curious to know why you did it."

"Well, mom, I don't mind tellin' ye. I just made up my mind I'd get a new sin to confess. I've dug old sins, and dug 'em up, and dug 'em up, till I'm sick and tired of 'em. I was bound I'd get a new one. That's exactly why I did it."

Maggie stayed on.—New York Evening Post.

GREATEST OF ALL QUESTIONS

Now, as Ever, World Must Give Consideration to the Problem of the Child.

Everychild looks at us inquiringly.

From the streets.

From the many windows.

From orphan and foundling asylums.

From the factories.

From the squalid homes.

And from the homeless places.

From the windows of the schools

He looks at us inquiringly.

He, the future of the race.

He looks at us and through us,

And far away

Into the distant future.

And sometimes in his eyes

There is hope and cheer,

And sometimes reproach,

And sometimes despair.

We had best stop and look at Everychild.

He is not alone for his mother.

Not alone for his father.

But belongs to every one of us:

He is the deepest concern of us all.

What shall be done for Everychild?

—Frederick Peterson in the North American Review.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots

How To Remove Easily

Here's a chance, Miss Freckle-Face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength Othine as this strength is sold under guarantee of money back if it fails to remove freckles.

READ THE WANT COLUMN.

WOULD WASH WITH THE BOYS

Salesman Appreciated Dignity of Partnership in the Firm, but It Had Its Drawbacks.

Something like forty years ago one of our South Meridian street houses had a star salesman, writes a correspondent of the Indianapolis Star. It also had two lavatories, in one of which the salesmen, bookkeepers and clerks washed off the grime of toil, while the other was reserved for the exclusive use of the two members of the firm. All the salesmen were on a commission basis, and in casting up the accounts at the end of the year the partners discovered that this particular traveler had made considerable more money than either of them. They decided that it would be a pious scheme to take him, in as a partner. The senior member made him quite a solemn speech on the occasion and ended by impressively presenting him with a key to the private lavatory. Delighted with the promotion, the star salesman went out and sold more goods during the next year than he had ever sold before. At the end of the year his ardor was dampened not a little when he found that his profits were considerably less than his earnings had been in previous years. He took the balance sheet to his desk and studied it carefully and finally brought it back to the senior partner along with the lavatory key.

"I'm much obliged for this mark of confidence," he said, "but, if it's all the same to you, I'll wash with the boys next year."

BALFOUR NO HERO TO CADDY

Young American of Chevy Chase Outspoken in His Opinion of Great British Diplomat.

Lord Balfour liked a good yarn, even at his own expense, and he told one to us at a dinner of which he was the center at the British embassy at Washington.

It was a splendid weighty function, worthy of pre-war days, when Europe was neither depressed nor hysterical. Some one had spoken of Balfour in complimentary fashion, of his great brain and his work at the conference, and he replied that this consoled him for an occurrence at Chevy Chase club, where he had gone to play golf the day previous.

Finding no one he knew about, he engaged a caddy and started off, walking and chatting with the latter. He asked the caddy's opinion about the use of a certain club. The boy gave advice, which Lord Balfour attempted to follow; but he missed the shot. Caddy took the club, illustrated his explanations, also missed the ball; but further explained this was because he was too short for the club. Lord Balfour again tried to follow caddy's instructions and again missed; whereupon caddy eyed him and remarked in solemn sincerity: "Gee, if I was as tall as you or you had my brains, what golf we could play!"—Princess Cantacuzene in the Saturday Evening Post.

Country's Farm Population.

Recent statistics sent out by the census authorities show that the farm population of the United States is only 31,614,269, a little less than 30 per cent of the total. This includes farm operators and farm laborers and their families, who live in the country, and shows an average of about five persons to each farm. About half the people in the nation are classified as rural—that is, they live in the country or in towns having fewer than 2,500 inhabitants, but only 61 per cent of the "rurals" are actually engaged in farming. Thus 39 per cent of the rural population and the entire city population must be fed by the men engaged in agriculture. It gives the farmer a big job. Only a few years ago each farmer had to provision his own family and one other family—now he must furnish food for nearly three other families besides his own. His occupation should not fail.—Farm Life.

Remarkable Gratitude.

Fred Grieger, Muncie clothing merchant, is tender-hearted. He says so himself. One evening recently he was driving in the country when he noticed a rabbit sitting in the road, apparently dazed by his automobile lights. Fearing he would run over it, he stopped the car, and taking it gently in his arms, placed it by the roadside, expecting it to hop away into the neighborhood fields, but instead, according to Grieger, it gave a running jump and landed in the car. Now the animal will not leave him, out of gratitude, Grieger believes, for having saved its life.

Grieger intends to use the rabbit as a decoy for other rabbits when he goes hunting, he says.—Indianapolis News.

Great Britain's Earthquakes.

Consternation is reported to have been caused in England recently at points 25 miles distant from one another by earthquakes. Selside shocks were experienced at Himplon in Worcestershire, a few miles from Droitwich (famous for its salt baths), and as far away as Berkswell, in Warwickshire. In the latter county reports of similar earth tremors came from such places as Knowle, Solihull, Henley-in-Harden, Hampton-in-Harden, Moriden and Sparkhill, near Birmingham. In Wimbledon the postmistress was thrown some distance across a room and her next-door neighbor was almost hurled out of an arm chair in which he was sitting.

Ex-Champion Recovering Eyesight

Pete Herman and baby.

Former bantamweight champion Pete Herman, shown here with his little daughter in his home in New Orleans, La., is rapidly recovering his eyesight. In a fight two years ago with Midget Smith, Herman became totally blind as a result of blows in the face. After the gamest fight of his career, he is slowly recovering and hopes to be able shortly to become a manager of a stable of prize fighters. His boxing days are over.

Ohio Hay Condition Below 1922 Crops

Columbus, June 14. — Alfalfa hay condition in Ohio is estimated at 85 per cent while clover and timothy hay conditions are around 75 per cent according to Statistician West, of the state federal crop reporting service. Last year's alfalfa condition was 94 per cent and the condition of the other hay crops was better than 50.

Among the Aztec treasures of Mexico exquisitely cut emeralds were found and it is from this source that the magnificent emeralds now forming a part of the royal collection of Spain are supposed to have come.

Fables of a Wise Little Bride

WHAT a nice drawer full of clean linen for George! How really helpful and housewifely she felt as she laid the things away—all the shirts and soft collars beautifully ironed and finished.

But it was hard work and tiresome, standing on her feet so long. The week's ironing had taken five hours! How could she keep it up week after week! Then on Wednesday she saw an electric ironer demonstrated in a store window. The woman was sitting down to the work, relaxed and comfortable. A touch of her foot on the long control board seemed to operate everything and she just guided the article under the slowly revolving roll.

How simple and easy it looked. And what a wife-saver it proved to be! For the Bride got her neat little ironing machine and now finishes up in a couple of hours.

There's a new 44-inch Thor Ironer you should see. Very compact and easy to handle—use it in the kitchen if you like.

SOCIETY

T. G. T. Club

Mrs. H. S. Harris won the honors in a picture contest at an assembly of T. G. T. club associates at which Mrs. Clark Marline was hostess at her home, south of the city, Wednesday afternoon. Needlework was the chief diversion.

Plans were made for a picnic to be held in the near future. The invited guests were Mrs. Phebe Borton and Mrs. Mark Borton and children, near Alliance and Mrs. George Boiz. In two weeks the members will meet with Mrs. Elba John, south of Salem.

Farm Women's Club

Fancywork interested the guests and music entertained when associates of the Farm Women's club gathered Wednesday afternoon at the home of Mrs. David Batzli, Sr., near the Garfield rd. A two-course lunch was served. Mrs. Brown and Mrs. Wolf were invited guests. A flower committee was appointed composed of Mrs. Samuel Riter, Mrs. William Leigh and Miss Hilda Franke. Mrs. David Batzli, Jr., will entertain the members the second Wednesday in July.

Star Club

Plans were made for a strawberry social for the members and their families Saturday evening, June 23, at the home of Mrs. H. S. Armstrong, when members of the Star club and their families met Wednesday afternoon with Mrs. John Jolly, Bunker Hill. Music and fancywork were favored diversions. Mrs. Theresa Chamberlain was an invited guest. The second Wednesday in July the members will meet again.

Tetlow Class Outing

A number of the girls who are members of Mrs. W. A. Tetlow's class of the Methodist church went to Pine Hollow Wednesday afternoon where they prepared an outdoor picnic supper and roasted wieners. A jolly social time resulted and out-of-door stunts were features.

Circle 5 to Meet

An all day meeting of Circle 5 of the M. E. church will be held Friday at the home of Mrs. D. M. Stanley, 300 McKinley ave. The time will be devoted to quilting. The business session will be at 2:30. The members are asked to bring their lunch.

Butler Grange Dance

A large crowd of people, a number of whom were from Salem and other surrounding towns, and vicinity attended a dance at Butler grange Wednesday night. The Lodge & Bell orchestra played for the dancing.

Homemakers Club

Mrs. Elwood Myers presided at a meeting of the Homemakers club Wednesday afternoon at her home, Winona rd. Select readings were given and music and needlework added interest.

Dance At Kelly's

A large delegation of Salemites attended the dance at Kelly's park Wednesday night. The Buckeye Serenaders provided the music.

Mr. and Mrs. George Meiter and son William, of near Salem, and Miss Hazel Smith, Columbus, motored to Pittsburgh to attend commencement exercises at Carnegie institute of technology, where Carl Meiter was graduated in the electrical engineering.

Mrs. Stanton Heck, McKinley ave., has gone to Madison, Wis., to attend the commencement exercises at the University of Wisconsin there. Her daughter, Miss Helen, will be graduated from this university at the commencement exercises Monday.

Mr. and Mrs. M. T. Waite have returned from Columbus, where they attended the annual commencement exercises of Ohio State university. Their son, Harold Braman, was a member of the graduating class, and accompanied them home.

Mrs. J. J. Isensee, Jennings ave., left Wednesday for Boston, where she will spend several weeks with her son and daughter, Robert and Helen Isensee, after which she will visit in Philadelphia and other eastern points.

Charles Wirsching, has returned from Delaford, Wis., where he attended St. John's Military academy, to spend the summer vacation with his parents, Mr. and Mrs. Philip Wirsching, Euclid st.

J. E. Finney has returned home from an extended eastern business trip. He has gone to Carrollton where he will spend a few days on business.

Mr. and Mrs. A. W. Stoner and daughter, Beatrice, Tenth st., will leave Friday by motor for Cambridge Springs, Pa., for a 10 days stay.

Mrs. John Wells, Chestnut st., attended a meeting Wednesday afternoon of the Pythian Sisters Past Chiefs association at Alliance.

Mrs. Howard Foltz and little daughter, Vivian Jeanette, have returned to their home in Ohio ave., from the Central Clinic hospital.

Mr. and Mrs. C. M. Piper have returned home from a trip to New York City, Philadelphia and Altoona, Pa.

Rev. H. L. Miller left Wednesday night for Bell Center, N. Y., where he will visit relatives for a few days.

Margaret Beagle, Rose st., will leave Saturday night for Chattanooga, Tenn., to make her home.

Mr. and Mrs. A. B. Hise and family are moving to Canton where they will make their home.

J. L. Andrews of Cincinnati is spending a few days with relatives in Salem.

Miss Lois O'Connell has accepted a position at the R. S. McCulloch store.

Kenneth Zeigler has accepted a position at the First National bank.

Mr. and Mrs. W. E. Vincent, Akron, were Salem visitors Wednesday.

Niece Of King George To Marry

Princess Maud, 17th.

Public announcement has been made in London of the engagement of the Princess Royal, Maud, to Lord Carnegie, son of the Earl of Southesk, whose kinsman, the Earl of Northesk, is in America to marry Jessica Brown, the dancer. Princess Maud is the eldest daughter of the late Duke of Fife, who lost his life as a result of a shipwreck off Gibraltar in 1911, in which the princess miraculously escaped. She is 30.

Wilson-Laughlin

The ceremony making Miss Helen Wilson the wife of W. G. Laughlin was performed at 10:30 a. m. Thursday at the home of Rev. M. J. Grabie, Garfield ave.

Mrs. Laughlin, youngest daughter of Mr. and Mrs. Kirby Wilson, McKinley ave., is a graduate of Salem High school of the class of 19. Until recently she had been employed at the Bliss company office.

The groom is a resident of East Palestine but is employed in the U. S. treasury department at Youngstown. Their house, at 209 West Glenhaven, Youngstown, is prepared ready for occupancy.

Mrs. Laughlin was attractively gowned in a dark blue tailored suit. Immediately following the nuptials they went to the Wilson residence where a wedding dinner was served.

Mr. and Mrs. Laughlin have gone to Washington, D. C., and Gettysburg on their honeymoon trip and in a short time will be at home to their friends in Youngstown.

Marriage Licenses

Rev. P. E. Carson of the U. P. church of Lisbon officiated at the marriage of Florence White, East Liverpool, and Arthur Sisco, Beaver, Pa., Thursday morning. Rev. P. W. McCauley of the Presbyterian church officiated at the marriage of Leora McLaughlin, Wellsville, and Harry Chapman, Hookstown, Pa.

A marriage license was granted to Helen Wilson, Salem, and W. G. Laughlin, East Palestine; Oca Fiber, Wellsville, and Carl E. Gruber, East Liverpool.

These couples have been granted marriage licenses at Youngstown: Miss Mamie H. McKenzie and Arthur W. Simms, Sebring; Miss Alta M. Harlen and Paul B. Raysayer, Alliance; Miss Erma A. Ramsey, Alliance; and Hubert E. Cobb, Hickory; Miss Elsie Caroline Gane, Sebring, and William G. Albend, Alliance.

Crossing the Sahara.

A wireless message received here from the Citroen caterpillar motor-car expedition which is crossing the Sahara, states that after two days' rest the party left Insalab at dawn on December 24, and by December 28, when the message was sent, had reached the foothills of the Hoggar mountain district. The next stage will be the most difficult of all, the passage of the Tanezruft, or "region of thirst," says a Paris dispatch to the London Times.

From Insalab the cars passed through great winds. The tracks of caravans which were followed by the party were marked here and there by the dead bodies of camels. The desert of sand came a desert of rocks. The cars went steadily without change of speed over this rough country, and succeeded in traveling 120 miles a day.

On the night following Christmas day the expedition camped in the last hills of the Moudir, on the edge of the Hoggar range. On Boxing day the Hoggar district itself was entered.

Monster Smokestack.

A monster smokestack which stands 257 feet in height, thus taking rank among the tallest in the country, has recently been completed for the University of Kansas at Lawrence, and is the subject of a brief illustrated article in Popular Mechanics. The reinforced concrete stack was erected to serve the new heating and power plant recently completed at a cost of \$300,000. On a clear day it is said that Topeka, some forty miles west, and Kansas City, about forty-six miles east, can be plainly seen from the top. The square brick stack of the old power plant, built in 1908 to a height of 127 feet, then considered great, is entirely overshadowed by the new chimney. It will furnish draft for eight boilers having a combined rating of 2,100 horse power.

All advertising copy given over the telephone is accepted at the advertiser's risk.

Jail Sentence For 9 In Liquor Cases

Columbus, June 14—Federal Judge Sater today sentenced nine Steubenville men who were arrested in a liquor raid by federal officers at Steubenville, May 5, to terms ranging from 45 days to six months in the Belmont county jail at St. Clairsville, and assessed fines ranging from \$150 to \$500. They will be taken to St. Clairsville this afternoon.

GIRLS! MAKE A LEMON CREAM TO BEAUTIFY SKIN

Mix the juice of two lemons with three ounces of Orchard White which any drugist will supply for a few cents, shake well in a bottle, and you have a whole quart-pint of the most wonderful skin softener and complexion beautifier. Massage this sweetly fragrant lemon cream into the face, neck, arms and hands, then shortly note the youthful beauty, softness and whiteness of your skin.

REALTY TRANSFERS

Susanna Henning, Martin Weber and Katharina Weber have sold their residence, 260 Roosevelt ave., to Anna Foreas, who buys it for an investment. Transfer made through the M. B. Krauss foreign exchange agency.

OBITUARY

Grove W. Anthony

Grove W. Anthony, aged 83, died at the home of his son W. C. Anthony, in Alliance Tuesday night following a slight stroke of paralysis. This is thought to have been the fourth stroke suffered by the deceased. Mr. Anthony lived at East Rochester. About a week ago he went to Alliance to spend a few days, and was in apparent good health when he began to retire.

Shortly after he had gone to his room, Mrs. Anthony looked in. Seeing him beside the bed, she called her husband. Dr. Koach was summoned but the man died a short time later. Deceased was a member of the 115th Regiment, O. V. I., during the Civil War for 11 months. After being discharged from this he re-enlisted, serving three years in the 19th O. V. I.

He is survived by four children, Mrs. J. F. McDonald of East Rochester, Mrs. W. L. Drayer of Lima, W. C. of Alliance and F. A. of Denison. He was a member of the Masonic order, the G. A. R., the I. O. O. F. and the Bible Christian Church of Kensington.

Abram Bacon

Abram Bacon, 67, retired farmer, died at his farm north of East Palestine at 11:40 a. m. Wednesday of dropsy. Mr. Bacon had been afflicted with this illness for the last year and had been bedfast for five months.

Mr. Bacon was a life long resident of Columbiana county and was born in Liverpool township. Surviving are his widow, two daughters, Mrs. Rena M. Ward of Salem and Mrs. Emma Spaulding of Hanoverton, and one sister, Mrs. Caroline Ball of Massillon.

Funeral service will be at 2:30 p. m. Friday at the United Brethren church East Palestine. Rev. P. M. Rold of Toledo, former pastor of the East Palestine church and intimate friend of the deceased, will officiate. Interment in the East Palestine mausoleum.

Frank Tecco

Frank Tecco, 19, died at 10:30 a. m. Thursday at the Salem City hospital. Mr. Tecco had undergone an operation for appendicitis more than two weeks ago and had returned to his home, Perry st., and returned to the hospital the second time.

He was the son of Mr. and Mrs. Phlox Tecco, Perry st. The funeral arrangements will be announced Friday.

SMALL BEGINNINGS SHOW BIG RESULTS

Many great enterprises begin in a small way. Many a successful advertiser has begun by using classified advertisements in a modest way. These brought good returns, which enabled the business to be developed, and eventually large advertisements were profitably used. Intelligent use of the little ads in The Salem News either as an advertiser or reader will prove

RUM IN AUTOMOBILE TANKS

Havana Chauffeurs Said to Be Using It Because It Is Cheaper Than Gasoline.

A report in the Scientific American has it that the taxicabs of Havana are running on what our forefathers knew as rum—though of the denatured variety. They are using it because it is 30 per cent cheaper than gasoline, and it is the product of blackstrap molasses, which is just now a drug on the market. This by-product of cane sugar is overflowing the storage tanks; by turning it into automobile fuel, taxi rates have been cut, the minimum now being 20 cents. This cut is said to have been authorized by the mayor at the request of the cabmen themselves, who hope by this means to popularize this mode of travel.

The superabundance of blackstrap molasses has given them their opportunity, and everybody and his wife are riding in state. Jamaica, too, is planning an installation near Kingston for the conversion of rum into industrial alcohol. The first consignment to be treated would be one of 800,000 gallons, the spirits being shipped to Canada and elsewhere.

LOCATED ON BOUNDARY LINE

Town That Is Half in the State of Vermont and Half in Prov. of Quebec.

There is a town called Beebe Plain, which stands half in the state of Vermont and half in the province of Quebec. The post office was built about 1830 exactly on the boundary land line between the United States and Canada.

Standing in two countries, the post office belongs to the postal service of the two nations. The cellar connects the two countries. In the days not very long ago when the post office was a general store, whisky was known to be sold in one country and delivered in the other without ever having gone from under the roof of the old structure.

Standing in front of this strange post office is a large post which marks the boundary line. It is said that one time a man who wanted to get a road-way to his premises moved this post, and many thousands of dollars and no little time had to be spent to establish the exact line again.

Cause of Climatic Change.

Tyndall was one of the first to suggest that the cause of the great changes that the climate of the earth has undergone in the past might conceivably be the formation of thin canopies of gas in the atmosphere, capable of transmitting the luminous heat of the sun, but impervious to the dark heat rays radiated back from the earth. Wheeler, seeking a new explanation of the glacial periods, suggests that such canopies could be formed by the fall of rings of matter external to the atmosphere. Being afterward resolved into belts, they might give rise to strong climatic zones, until their final disappearance by descent to the earth in the form of dust. He picturesquely suggests that primitive man saw the latest cloud belts, which gave rise to the myths of serpents twisted about the earth.

Starlight Drives Motor.

A motor driven by starlight has been invented by an American scientist, Dr. W. W. Coblentz of Washington, D. C., says the Mentor Magazine. So sensitive is the instrument, which measures heat radiation from the stars, that it will detect an electric current of one-billionth of an ampere. Or, to put it more graphically, it is possible to measure the heat given off by the most distant star by means of electricity generated by its heat. If the heat from a certain nebula composed of 100 stars, hundreds of millions of miles from the earth, were concentrated on sixty drops of water for a hundred years, the temperature of the water would be raised one degree only, Doctor Coblentz says.

Burglars Laugh at Police.

The wildest fiction writer would not have dared to put it in a story, but Scotland Yard itself was visited by burglars the other day. The sacred home of criminal justice, which no stranger can enter without being asked his business at every turn, was thought to be the one place thieves would let alone, but early morning visitors entered the lost property room within a few feet of a score or more of reserves, apparently passing right by a man patrolling outside and got away with several hundred dollars worth of valuables.

Scandinavia's Forest Dowry.

About 50,000,000 acres, or about 59 per cent of the soil of Sweden, is covered with forests. For each 100 of the inhabitants Sweden has 906 acres of forest, which is the greatest proportion in Europe, next to Finland. Great Britain and Ireland have only 7.4 acres per 100 inhabitants. Of the cereals, wheat is chiefly grown in the central and southern parts of the country; rye farther north, but in the most northerly parts barley is the staple grain.

Keeping Ships Afloat.

Keeping ships from sinking is the ambition of C. S. Henslee of Chattanooga, Tenn., who has invented a device consisting of a string of cone-shaped cups. In case of collision one of these cups would be drawn into the hole in the hull and form a water-tight cap over the aperture.

Read the Want Column. You will find it interesting.

STOCKS

MARKET IS IRREGULAR

New York, June 14. — The stock market opened irregular today. Activity centered in Steel common, which was forced down $\frac{3}{4}$ to 94 $\frac{1}{2}$. Bethlehem Steel was off $\frac{1}{2}$ at 56 $\frac{1}{2}$. American Locomotive up $\frac{1}{4}$ at 129. Present Steel car dropped three points to 61. Studebaker lots $\frac{3}{4}$ at 109 $\frac{1}{2}$. Standard Oil of New Jersey declined $\frac{3}{4}$ to 32 $\frac{3}{4}$ and Sinclair $\frac{1}{4}$ to 26. Railroad stocks were fairly steady. New York Central was off $\frac{1}{4}$ at 103 $\frac{1}{2}$ and Baltimore & Ohio up $\frac{1}{4}$ at 51 $\frac{1}{2}$.

CHRISTIAN CHURCH

(Continued from first page.)

up clinic will be held in the fall under the auspices of the Christian church school to see the babies. Owing to the interest taken in the infant work the list is limited to the cradle roll membership of the church.

Vacation Bible School

A splendid report of the Vacation Bible school conducted last year proved that this school was one of the most successful in Ohio.

This year the Vacation Bible school will open July 2, with Mrs. Ross Clay again in charge and with Mrs. Spencer Jewell, Miss Ella Strawn, Mrs. Cloyd Harris, Allen Smith, Esther Kelly and Wilda Moats as her assistants. It is expected that additional helpers will be needed as indications point to a larger attendance than that of last summer.

The school is open to all children of the city whether or not a member of the Christian church. The school convenes at 8:30 a. m. and dismisses at 11 each day. The children are taught many lines and the school closes after five weeks with an exhibit of the work done and a program of entertainment.

Mrs. Ross Clay will leave Salem next week for Newark where she will represent the Christian church of Salem at the Ohio State Interdenominational Sunday school conference in session until Friday.

Other Accomplishments

During the last nine months in the various phases of work accomplished in the Christian church 18 hours were devoted to the study of spiritual interpretation of selected poetry and the psychology of religious experiences. In the course dealing with the life of Jesus and the literary symposium 13 and a half hours were consumed, making a total of 21 and a half hours on extension course work. There were 21 conferences of the school and an unlimited amount of time devoted to the cradle roll work. Seventy-five hours were passed in the five weeks of the Vacation Bible school activities last season.

The church school cabinet met regularly during the past nine months and the school contributed liberally to all welfare movements in the city and they pledged \$265 to the Salem Welfare Federation during the recent drive.

One thousand dollars was paid toward the endowment of a chair of religious education at Hiram college and a fund of several hundred dollars was raised by the school toward the building of a girl's school at Paraguan, South America, by the Ohio Christian Missionary societies.

In addition to the payment of all expenses of the school, the raising of the endowment fund, the welfare contribution, the girl's school fund, and now the pledging of \$10,000 for the newly acquired church property the school account shows a balance June 1 of nearly \$200.

The Leland Watch Shop

We have a Modern Repair Dept. All watches repaired in our own shop and not sent away. This department, in charge of F. SONNEDECKER, experienced watchmaker.

PREPAREDNESS IS URGED BY WOMEN

FINALLY AROUSED TO COMBAT
THE EFFORTS OF THEIR DIS-
ARMAMENT SISTERS.

WARM STRUGGLE IN CAPITAL

Washington Watches With Great Interest the Fight Between These Well Organized Forces—Likely to Have Effect on Congress.

By EDWARD B. CLARK

Washington.—Factional strife within the ranks of the great political parties over the League of Nations proposal and other things is tame and mild as compared to the battle now being fought in Washington between the forces of women who want the United States totally to disarm, and the more militant sisters who are on the offensive in behalf of preparedness. Washington today is the scene of an amazing combat between well organized forces. It took the preparedness women a long while to wake up to the full knowledge of the progress that their unpreparedness sisters were making in their propaganda for permanent peace to be secured, as they claim, by doing away entirely with the armies and navies of the United States no matter what other countries may do. Now the opponents of this total disarmament plan are aroused to action and the fight is on. It is a warmly picturesque sight from any advanced observation post.

The district commandery of the American Legion, the Military Order of the World War, the Sons of the Revolution and other patriotic organizations which are all for peace but not at all for defenselessness, realized finally that the capital of the country was being made the central headquarters of propaganda in behalf of quick and complete disarmament without regard to the rest of the world, a propaganda, as the patriotic organizations believed, also partly intended to communitize the United States.

Interesting Fight to Watch. The aroused organizations considered their first duty to rouse the interest of those women who had been thinking that their disarmament sisters and their sisters suspected of Russian sympathies, simply were sentimentalists and were not getting anywhere and therefore that no action was necessary. Finally various organizations of women in Washington saw what they believed to be a light and they followed it into the field, and today they are engaged in combat with those female forces which for two years have been bombarding congress and the War and State departments with petitions in behalf of complete disarmament, and in behalf of recognition of the communist government of Russia.

Washington is watching with interest the struggle between the well equipped forces of women. A day or two ago the largest woman's organization in the capital of the country, the Twentieth Century Club, passed and gave unanimous endorsement to a resolution directed against the efforts of their disarmament-pleading sisters. The most marked feature of this resolution was its second paragraph which declared specifically that the club endorsed heartily the efforts of the armed services of the United States to prepare this country to defend itself in case defense should become necessary. The club went on record flatly in behalf of preparedness.

It is now believed that the awakening of the women who stand for preparedness will have its effect on the law-makers. Last winter the national legislators here assembled, apparently thought that every woman in the United States was back of the propaganda to force the infantry of the country to throw away its rifles, the artillery to spike its guns, the aviators to cease their training and the sailors to refuse to go down to the sea in battleships.

Permeates to the Schools. Charges are made in Washington today that the public schools of the District have been opened to the teaching of the unpreparedness advocates while men and women who believe the other way have not been allowed to make their views known to the school children.

Word came the other day to the commander of a Washington post of the American Legion that some of the parents of the school children had protested against the introduction of propaganda into the school life and that it was specially noxious because it didn't represent the views of the majority of the parents of the pupils.

It is understood to be the intention of the women who were delegates to the recent convention of the Daughters of the American Revolution to deliver to women in their home towns throughout the country the news of the fight in the capital and to urge that some means be taken to offset a propaganda which most of its opponents seem to think is not merely directed to the ends of peace-on-earth, but mainly to an attempt to secure recognition by the United States government of the communist government of Russia, and to lead Americans to a belief in communism.

Take Your Choice.

FOREIGN LINERS IN RACE TO LAND IMMIGRANTS HERE

Uncle Sam To Admit 357-
803 Immigrants First To
Arrive July 1.

New York, June 14.—Twenty-two starters today toed the mark in what is expected to be the greatest race in world history.

They are the 22 foreign liners which on July 1—the first day of the government's fiscal year—are scheduled to arrive at Ellis Island, melting pot of the nations, with the first of the 357,803 immigrants Uncle Sam will accept for adoption during the next 12 months.

"Thousands of passages already have been booked from Liverpool, Queenstown, the ports of France and Spain and Africa," steamship company officials said here today.

Ellis Island heads in a dilemma. "We have but 1,500 beds—What will we do with the 1,000 who will arrive July 1?" they asked.

To complicate matters officials pointed out that Henry Curricano, a new commissioner of immigration, will be in charge on that date. Robert E. Tod, present commissioner, has resigned effective June 30.

"The rush will be the greatest in the history of the immigration department," Tod said today, giving figures of the influx of foreigners during the year 1922-23.

"It might be supposed that Germany, suffering after war effects, would take advantage of America's offer to admit 67,607 of her citizens. Yet Germany sent over but 40,934—26,673 under her quota. Austria too fell short, but only by 120.

England Fills Quota. "On the other hand England's quota of 77,342 was filled within a few months after the beginning of the year. Italy too sent her allotted 42,057 immigrants over as quickly as possible.

Russia may be the "ideal land" claimed by her champions. "But Russia sent the 24,405 immigrants she was permitted, over here with all possible speed," Tod said.

"Norway has failed to fill her quota of 13,202 by 2,297; France has 1,083 left from its allotment."

The other countries which have not filled their permitted quotas are Denmark, Sweden, Austria, Bulgaria, Rumania, Iceland, Poland and Estonia. Every other nation on earth has sent more immigrants than the United States would admit under the present immigration law.

"Last year many seeking admission to the United States did not realize that after their country's quotas had been filled they could not be admitted," Tod explained. "Thousands were turned back after reaching Ellis Island. These thousands will try again this year—be among the first arrivals after July 1."

Movie Firms Rapped By Trade Commission

Washington, June 14.—The federal department of justice today issued an order

today at motion picture companies which re-issue old films under new names.

An order to cease and desist from such practices was issued against the Fox Film corporation of New York. The commission said the Fox corporation had "furnished to exhibitors three re-issued pictures bearing titles different from those used at the time such pictures were first shown to the public, and that the advertising material in the exploitation of the pictures did not disclose in any way that they had previously been shown under another title."

In putting out old films, the commission said companies should state in their advertising posters and contracts that the film was re-issued, and that the original name should be given.

New York.—One man picked up a dirty string of beads from the gutter and tossed them aside to a hotel employee, branding the beads as five and ten cent store junk. The hotel employee had read an advertisement for a pearl necklace and returning the dirty beads was given a large reward for the \$10,000 jewels.

WEAK, RUN DOWN AND AILING

Lydia E. Pinkham's Vegetable Compound Brought Relief When
Other Medicines Failed

Winston-Salem, N. C.—"I was weak and run-down and had trouble with my

side. I had been taking medicine for a long time and nothing seemed to do me any good. My husband went to the drug store and he said to the clerk, 'I want the best medicine you have for women's troubles.' He gave him a bottle of Lydia E. Pinkham's Vegetable Compound and I used it. In a short time I was able to do my housework, and now I am not only able to do every bit of that and washing and ironing, but I help my husband at the store and feel good all the time."—Mrs. L. K. MYERS, 1409 E. 14th St., Winston-Salem, N. C.

Feels New Life and Strength

Keene, N. H.—"I was weak and run-down and had backache and all sorts of troubles which women have. I found great relief when taking Lydia E. Pinkham's Vegetable Compound and I also used Lydia E. Pinkham's Sanative Wash. I am able to do my work and feel new life and strength from the Vegetable Compound. I am doing all I can to advertise it."—Mrs. A. F. HAMMOND, 72 Carpenter Street, Keene, N. H.

THE HIGH COST OF CHEAP MONEY

Widows and Orphans Among Chief Losers From Unsound Currency.

E. E. AGGER CITES EXPERIENCE

Speculators Rather Than Investors and Producers Win From Currency Depreciation.

The losses and costs borne by the government and the people of the United States from unsound money experiments, from colonial times down, doubtless total more than our staggering World War appropriations, it is declared by E. E. Agger, an authority on economics, in the Journal of the American Bankers' Association. "Cheap money," he says, is very costly, since frenzied finance, speculation and business disaster have invariably followed in the wake of unsound currency. He cites his historical experience showing that widows and orphans were among the chief sufferers.

"New generations of adults, like children, have to learn over and over again that, when playing with fire, one runs the risk of being burned," Mr. Agger says. "Indulging currency heresies constitutes such an adult playing-with-fire. A glance over our own historical experience would demonstrate this to the most ardent 'easy money' advocate, but such advocates are usually those to whom history is 'bunk.'"

Soft Money Advocates Seek Profit
"Unfortunately those who are willing to kindle the kind of conflagration involved in 'soft-money' experimentation are not the only ones hurt. Indeed, they may extort an advantage for themselves. But the record is all too clear concerning the mass of people. Heavy losses, injustice, disorganized production and numerous other evils are inevitable."

"Unsound money projects impose heavy costs on the government itself. The first effect of cheap money is to raise prices. Mounting prices mean that, to meet its needs, the government must appropriate always larger sums. Again, dallying with unsound money weakens the government's credit. Prospective bond buyers become hesitant when currency depreciation is threatened, because there is danger of agitation toward the payment of government obligations in the cheaper money rather than in specie. Any such weakening of government credit means lower prices received for bonds, consequently greater burdens on the Treasury. Assuming that, in the end, sound principles triumph, the indulgences of the unsound currency days leave further costs to be met. If paper money has been issued it must be redeemed. If a government be unwilling to stoop to repudiation it must raise much more in taxes to pay for the paper money than it received at the time of issue."

The total effect of paper issues in increasing the cost of the Civil War is estimated at about \$600,000,000. Mr. Agger says, continuing:

"Much more serious than the costs of unsound currency to the government are the heavy direct and indirect costs imposed upon the people. Our productive system is controlled through prices, and the upset of prices, caused by a depreciating currency, interferes with the proper harmonizing of the different lines of production. Price changes are not instantaneously or uniformly effected throughout the whole system. The result of an inflationary movement is a stimulation of speculation and over-investment in some lines, with inadequate development in other lines. The period of speculation seems a period of prosperity, but how false and unsound is such prosperity is disclosed in the stress and agony of the inevitable period of liquidation which, Nemesis-like, follows on the heels of the boom."

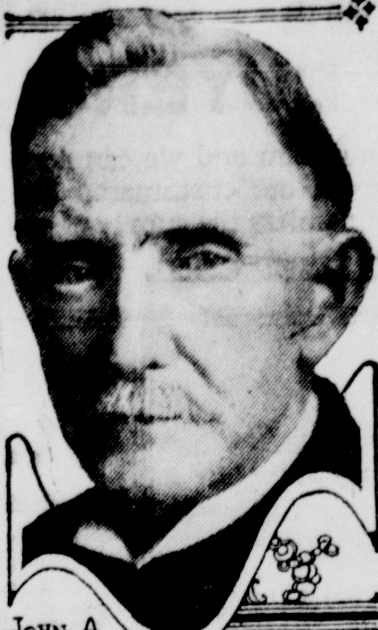

Wealth Unfairly Re-distributed

Mr. Agger then describes "the distressing effects of an unsound money on the distribution of wealth among classes and individuals. Cheapening money through inflationary expedients is a gigantic fraud upon the creditor classes as against debtors. All those dependent on fixed incomes, or receiving specified sums in terms of money, are penalized when the purchasing power of money is depressed. In like manner the stockholder profits at the expense of the bondholder—a fact which implies a reward to the more speculatively inclined at the expense of the conservative."

"Advancing prices cause discontent and give rise to agitation and unrest among those whose incomes cannot promptly be adjusted to meet higher living costs. Strikes are fomented and production is curtailed. Everybody shares in these burdens. Lack of stability in money also undermines and weakens habits of thrift. A corrosion of the moral integrity of the people is inevitable. Dishonesty is stimulated and a desire to gain by speculation rather than to earn a livelihood by productive and useful labor causes a marked deterioration in popular habits and character."

Vincennes Citizen Wants Everyone to Benefit by His Experience.

JOHN A. WILLIAMSON

"If I had the names of all the people who are suffering now as I suffered, I would write each one and tell them how Tanlac completely ended my long-standing rheumatism and stomach trouble," recently declared John A. Williamson, 392 Broadway, Vincennes, Ind.

"What little I forced myself to eat seemed to form a lump and caused awful pains in the pit of my stomach. Rheumatic pains would shoot through my back and shoulders and I could not sleep but an hour or two a night. In fact, I suffered both day and night and got so I could hardly drag myself to and from work."

"Tanlac put me right back on my feet. I'm always hungry now and enjoy my meals, for I don't have a particle of stomach trouble any more, sleep all night long and haven't a trace of rheumatism or any other ailment. Tanlac always gets my highest praise."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.

COURT NEWS

Seek School Site
Application has been made by Perry L. Kirby, city solicitor, East Liverpool, to the probate court asking permission to appropriate a certain tract of land of one acre on the Lincoln Highway near East Liverpool, at present part of the lands of Munie Whipple. The proceedings are brought in behalf of the East Liverpool board of education which intends to erect a school house on the property.

Jurors Are Excused
At 11 a. m. Wednesday, Judge J. G. Moore excused the jurors drawn for this week's court until next Monday. All cases in which their services were needed in both courts, having been either dismissed, settled or continued.

Call Special Jury
Judge Moore has notified Prosecutor Jesse Hanley that a special jury to try the case of the county commissioners against Harrison Rhinehart, East Liverpool, would be drawn next week from residents of either Stark

Marion—Celebrating his 79th birthday anniversary Dr. George T. Harding, the president's father, is as fit as a fiddle and he claims that plenty of oatmeal in the diet will keep the arteries young and help to prolong life. He eats a great deal of it and recommends it to his patients.

SHE FINALLY CAME TO NERV-WORTH FOR RESULTS

Like Hundreds of Others Found It Did the Work Where Other Remedies Failed.

Mrs. F. J. Cloner of 221 1/2 Brady St., Dubois, Pa., told a Nerv-Worth representative in an interview the other day how she tried for a long time to get relief from stomach and nervous troubles, but met with no success until she found Nerv-Worth. She said and recommended by Bennett's and Treats'.

she said she could not eat anything and keep it on her stomach, and she was so nervous that she could not sleep at night. Numerous remedies had failed, but after taking Nerv-Worth, she reports that she can eat and sleep much better, and is only too glad to tell what it has done for her. Give Nerv-Worth a trial today, and remember if your first trial bottle is not satisfactory, your druggist is authorized to refund your money. Sold by leading druggists.

Lighten the Work of Women

From the Electric Percolator on the breakfast table to the Electric Washer and the Electric Ironer in the basement, electricity has lightened the work of women, in the city and on the farm.

Yes, on the farm. Because Westinghouse has developed a Farm Light and Power Plant that enables the farmer's wife to supplement her skill in home making with electrical appliances.

It does not require electrical or mechanical skill to operate this light and power unit. Westinghouse engineers designed it so that it could be operated by anyone on the farm. And while it is simple in design, it will go about its work as smoothly and easily as the more complicated isolated electrical units do.

This is such an interesting subject to us that we're sure it is to you, too. Why don't you come in and let us answer your questions about it even though you have no intention of buying?

SPECIAL PIANO SALE

ALL THIS WEEK

Songs that reach your heart

are the simple ballads that sing of life's joys, hopes and sorrows. Popular music may come and go, but "Old Kentucky Home" will live forever; as long as there are sweethearts, "Love's Old Sweet Song" will voice youth's happy dreams.

When played on the

Hobart M. Cable Player Piano

these delightful old songs fairly thrill one with their sheer melodic beauty. For you play with the artist's correctness, and, expression being wholly within your control, all the emotions of your heart find outlet, for the Hobart M. Cable "places all music at your finger tips."

Special showing and special sale of all our High-grade Pianos, including this wonderful Hobart M. Cable Piano. A very special price on a number of good used Pianos, one as low as \$89. Others at \$115, \$200 and good Player Pianos at \$280.

Easy terms. Your old Piano taken in exchange. Visit our store this week.

PLEA MADE FOR INSANE VETERANS

GOVERNMENT IS NOW ASKED TO
UNDERTAKE THE CARE OF
ALE IN THAT CATEGORY.

URGED BY A CHICAGO JUDGE

At Present Ex-Service Men Whose
Mental Troubles Haven't Been Di-
rectly Traced to the War Are Ig-
nored by Uncle Sam.

Washington. — Following a plea which has been made to the veterans' hospitalization committee by Judge Jarecki of the Cook County court of Illinois, who spoke for other judges as well, it seems likely that hereafter all veterans of the World war who developed insanity will be put under the direct care of the United States government.

Today differentiation is made between the cases of ex-service men whose insanity has been directly traced to the hardships of the service, and those of ex-service men in whose cases the cause of the insanity has not been definitely determined.

If the plan shall be sanctioned it will mark a departure from the path of the past. A good many veterans have wondered why cases of insanity among ex-service men which the doctors attributed directly to the privation or the wounds of service should be given government consideration to the entire exclusion of the cases of insane ex-service men whose mental troubles perhaps are attributable to the hardships of service, but concerning the causes of which the doctors would give no definite opinion. As the veterans have viewed it, an ex-service man is an ex-service man, and he should be given the benefit of the doubt in any mental case.

Precedent in Pulmonary Cases. If an ex-service man develops pulmonary trouble it is at present taken for granted that the seeds of the disease were sown during the war, and the government accordingly takes over his case without question. It is understood that the time limit for such cases has been extended.

Ex-service men who hold executive positions in various organizations of veterans always have wondered why other than pulmonary troubles might not be given the same consideration by the government authorities. No one, however, seems to be moved to take the initiative in the matter. Judge Jarecki's statement concerning the cases which come before his court seems to have given to the President of the United States and to Doctor Sawyer the first knowledge that this differentiation was made.

Insanity among ex-service men is a common ailment. The percentage of the trouble is much higher proportionately than it was in the ranks of the men following any other war in which the United States has been engaged. The reasons are not hidden. The nervous strain which men in the front lines and the supporting lines underwent in France surpasses the comprehension of men who were not subjected to it. High explosives furnish the unchallenged reason for the mental strain which resulted immediately in so-called shell shock, or later in the complete giving way of a nervous system overworked by subjection to the appalling experience of hours spent in an inferno.

When men volunteered for the service or were drafted into it they were sent before boards of doctors for physical examination. The records show that about 33 per cent of young America was found unfit for the service. This percentage of deficiency so aroused the country that today efforts are being made to make such a condition impossible in the future.

Many Not Nervously Fit. The examinations of the doctors were more or less hurried. They could detect physical troubles which showed themselves outwardly, but they were unable in cases of apparently normal men to discover whether there was anything wrong with the nerve centers.

Men went into the army with good muscles, good eyesight, good hearing and good lungs, and yet proved in many cases that their nerves were unable to stand the high occasion of battle. The results, so the veteran authorities seem to agree, not only were shown in battle and immediately following battle, but are being shown today in the final giving way of the mentality of some of the men who fought to overcome their nerves and succeeded temporarily in so doing but who now have collapsed.

It is easy enough today for doctors and even perhaps for laymen to determine definitely that the development of insanity in certain of the ex-service men is directly attributable to the experiences of battle. The cases in which the first cause can be determined are those in which the men have shown a progressive decline of mental faculties, the beginning of the trouble dating from the day of their first response to the sound of sick call. In the cases of other ex-service men who have become insane it is more difficult to trace the trouble to a first battle or general hardship causes. Some of the soldiers were affected on the battlefield but kept knowledge of their trouble to themselves; in other words, they overcame their nerves temporarily and the surgeons were none the wiser.

LISBON PYTHIANS WILL HONOR DEAD

All County Lodges Invited
To Ceremony; Cleveland
Man Will Speak.

Lisbon, June 14.—The programs for the Knights of Pythias memorial celebration scheduled for next Sunday has been completed by the local committee.

The celebration will start at 1 o'clock when a parade will be formed on Washington st at the corner of Market, consisting of delegations from Salem, East Liverpool, Columbiana, Leetonia, Rogers and East Palestine, headed by the Presbyterian band. Following the visiting delegations the local lodges bearing flowers to decorate the graves will join the procession.

After this ceremony the marchers and citizens will gather about a speaker's stand that has been erected in the cemetery and listen to an address by Past Grand Chancellor Fred Crummel, of Cleveland.

At the conclusion of the address the parade will be reformed and return to the Knights of Pythias hall on South Market st, where it will be disbanded.

Invitations sent out to all the county lodges have been accepted and with good weather conditions it is estimated that fully 500 visitors will participate in the ceremonies.

Remodel Store Front. Workmen began Wednesday to remodel the front of the Lewis drug store on Lincoln Way. A new central store story will be put in position before the work is completed. The addition will add much to the appearance of that part of the business section.

Plan Lighting System. Fred Raymond and William Morgan, a committee appointed by the Kiwanis club to superintend the campaign for the lighting system for the business district, in company with Manager Enland, of the Ohio Gas & Electric Co., made a survey of the public square and the streets leading to it for the purpose of placing the new electric light standards that will be erected.

The new equipment is expected to arrive within the next ten days and the committee hopes to have the standards erected and ready so the juice may be turned on as part of the local celebration of July 4.

There will be 48 standards erected and each will be surmounted with a globe in which a powerful, electric light will be placed.

Aged Woman Injured. Mrs. Mollie Vogen, widely known and highly respected in Lisbon, was

Child-birth

Here is a wonderful message to all expectant mothers!

When the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend," Mrs. C. J. Hartman, Scranton, Pa., says:

"With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used Mother's Friend and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes." "Use 'Mother's Friend' as our mothers and grandmothers did. Don't wait, start today, and meanwhile write to Bradford Regulator Co., B.A. 46, Atlanta, Ga., for a free illustrated book containing information every expectant mother should have. 'Mother's Friend' is sold by all drug stores—everywhere."

A PRODUCT OF AMERICAN GENIUS

MORE than two billion dollars were required to build the Pennsylvania Railroad System. The American people furnished the money.

This vast transportation machine—at work day and night in the service of the people—embraces 11,680 miles of main line with a total trackage of 27,387 miles. It owns more than 7,600 locomotives and 8,240 passenger cars with a seating capacity for about 338,000 people. Its freight cars—more than 260,420 in number—are capable of carrying about 13,831,000 tons.

During the first three months of the present year the Pennsylvania Railroad System handled nearly two million loaded freight cars. This was a record movement, eighteen per cent greater than the freight handled in the same period last year, thirty-four per cent more than in 1921, and ten per cent more than in 1920.

To move so tremendous a traffic safely and efficiently required the loyal cooperation of every employee and conclusively demonstrated the fact that the Pennsylvania Railroad organization—a product of American genius and enterprise—is united in the performance of a public service of surpassing value to the American people.

Pennsylvania Railroad System

The Standard Railroad of the World

severely injured Tuesday when she fell in descending from the porch of her home, Washington st. She was bruised but suffered no broken bones. Owing to her advanced age her condition is rather serious.

Spend Summer On Farm. Raymond Williams, Hammond, Ind., arrived here Tuesday with his family to spend the summer at his farm near Gavers.

Former Lisbon Girl Honored. Ruth Williams, daughter of Mr. and Mrs. G. S. Williams, of Youngstown, formerly of Lisbon, is one of the graduating class of Beaver college, near Cleveland. Commencement exercises will be held tomorrow. Miss Williams has a large circle of friends and relatives in Lisbon who will be interested to know that she has completed her course with honors.

Fixes Flower Beds. John Scott, local florist, has started installing four flower beds in the grass plots on the public square. There will be two large beds of geraniums in one plot and one each of cannas in the other two.

Masons To Visit Salem. Lisbon Masons are preparing a large delegation to attend the dedication of Salem Masonic temple June 27. The local representatives will be headed by the Lisbon Presbyterian band and will number at least 100 men.

Block Is Purchased. J. D. Kuhns has purchased the McVicker-Firestone block on North Market and will remodel at once the second floor for living apartments.

GREENFORD

A valuable horse of L. F. Dively's that was recently treated for colic and kidney trouble and was getting along well, got out last Thursday and foundered by drinking too much water.

The Greenford grange lyceum presented their play, "Civil Service," at Georgetown last Friday night and were asked to give it at another place south of Sebring soon.

Hudson People Give Play. Rev. Dan Beardsley with 21 of his congregation from Hudson gave the play, "Finding Mary Ann," in Grange hall Saturday night. Sunday Rev. Beardsley preached in the Christian church and after the services all took their baskets to the basement of the Grange hall and enjoyed a picnic dinner.

BIG MEMBERSHIP DRIVE PLANNED BY FARM BUREAU

Horner Williams In Charge Of Campaign To Be Opened Jun e27.

Lisbon, June 14.—A drive for new members for the Columbiana County Farm Bureau will begin the morning of June 26 and by the evening of June 27 the entire county will have been canvassed. The campaign is being worked out under the management of Horner P. Williams of Madison township. The County Farm Bureau now has 1,214 members on its roster.

During the last year or two, and since the big drive for members made in 1921, a number of farms have changed owners, and these newcomers are not all members of the Farm Bureau. These new folk will of course be solicited to sign a three-year membership application.

Every township is to be divided into eight districts, and each district will be in charge of a chairman and two or more solicitors. These solicitors will meet in the Farm Bureau office here the evening of June 25 to receive application blanks and other instruction.

Two days will be devoted to the canvassing of every one of the 18 townships in the county and on the evening of June 27 the solicitors will again meet in the Farm Bureau offices and turn in their reports to Mr. Williams.

The last of the three year membership notes is now due and payable. These notes are being collected through the banks nearest where the particular farm bureau member lives.

New Warehouse Opened

The Kensington Warehouse Co., organized from among Farm Bureau members in Carroll and Columbiana counties, and which began business June 1, got away to a good start. Three days after the new company started business, all invoiced stock was practically sold out.

The company has also experienced difficulty in securing sufficient cars to ship hay, straw, wheat and other cereals. In the meantime, however, farmers who have been holding their stocks until the new warehouse opened for business have been hauling to Kensington in such volume, that at times storage space was hard to locate.

Roy Elton is in charge of the warehouse, but the business has been soaring so rapidly that he will soon require another office assistant.

H. B. Mason, an auditor for the Ohio Farm Bureau Federation, is now in Kensington for the purpose of opening the books for the new company.

While no livestock has been shipped from Kensington by the Warehouse company, this feature of the business is done under the management of the Columbiana County Livestock Shipping association. A full car of sheep will roll from Summitville Thursday—the first car of sheep to be shipped from that station, although mixed cars have been forwarded.

Four Clubs Formed

Four clubs have been formed by County Agent Clarence E. Rowland, and as a result of this effort some wonderful work is being accomplished among the younger folk.

The food club has a roster of 50 names, mostly young women and girls while the pig club and the poultry clubs have 30 members each. There are five boys enrolled in the calf club.

Members of these various clubs will have displays at the county fair next September.

Farm Bureau Record

The Farm Bureau office here did a gross business of over \$26,000 last month, thereby establishing a new high record. Seven carloads of certified seed potatoes were handled, representing 5,012½ bushels. This volume is more than double the amount of certified seed potatoes purchased by county farmers last year, and quite a lot of this stock went into Hancock county, W. Va.

Fertilizer Record

This county holds the record for the purchase of fertilizer through the agency of the Farm Bureau this year, 1,300 tons having been shipped into the county. This represents 26 carloads, averaging 50 tons to the car. On top of this volume, the farmers of this county also have bought through the Farm Bureau office here 2,000 tons of lime. This shipping represents 20 cars or 4,000,000 pounds of fertilizer. Fertilizer shipments for the month of June have reached new high records.

Ship 30 Tons Of Wool

Approximately 30 tons of wool will be shipped out of the county this season, and it all will be consigned to the Horkheimer warehouse at Wheeling, W. Va., which is an agency for the Ohio Sheep and Wool Growers' association. The wool market is very firm now, and even higher quotations than the present are confidently anticipated.

Dizzy Spells Due

to Undigested Food

Dizziness and faintness after eating show that your food is not digested and is turning into poison and gas. Simple buckthorn bark, glycerine, etc., as mixed in Adlerika, expels all poison and gas from BOTH upper and lower bowel. Removes foul, decaying food matter you never thought was in your system which poisoned stomach and made you dizzy and faint. Adlerika is EXCELLENT to guard against appendicitis. The J. H. Lease Drug Co.

MADE FOR WAR AND PEACE

Tomahawk Pipe Presented to Wisconsin Museum is One of Rarest of Indian Souvenirs.

A strange combination of war weapon and peace pipe, known as a tomahawk pipe, was presented a short time ago to the Wisconsin historical museum, Madison, by Mrs. Helen McNeil, Stoughton. The head of the pipe is of cast brass with a steel cutting edge, and the handle is of hardwood, with a hollow groove through it for the pipe stem. About three thumbfuls of tobacco can be held in the top of the blade, which is hollow and bowl shaped.

The origin of the tomahawk pipe dates from the time of the French-Indian war. Indians on the march insisted on carrying their stone pipes, and the pipes, in addition to the stone tomahawks, added to the weight of the marching equipment, so some genius devised this odd combination of pipe and tomahawk.

The pipe just presented to the museum is claimed to be the only one of its kind in existence in this part of the country, and was once in the possession of one of Blackhawk's squaws. During the removal of the Indians from Illinois to Nebraska, in 1822, ten years before Blackhawk's famous retreat, Capt. Charles McNeil, of the United States army, allowed the squaw to ride because she was ill. As a mark of gratitude, she presented the tomahawk pipe to him.—Wisconsin University Bulletin.

FORGOT DATE OF WEDDING

English Newspaper Reports Odd Happening That Is Somewhat Hard to Believe.

Here is a case recorded by the London Daily Mail where it was the bridegroom who waited in vain at the church. He had obtained the license, fixed the time—noon on Monday—and had written to his fiancée at Norwich well in advance.

On Monday he sat down at the office with two friends to await the bride's arrival. Three hours passed and the registrar said that as it was 3 o'clock the ceremony could not take place that day.

Next day at noon the bride and her mother appeared at the registrar's office, but there was no bridegroom. "I am sure it is today," she said when the registrar could find no appointment, and then by a comparison of names he found that she was the bride who should have come the day before.

She went away and soon after 10 o'clock both bride and groom reappeared together and were married.

While the bride had been on her way from Norwich on Monday afternoon the groom had been in a train going to Norwich to learn the cause of the delay.

Known as Children's Friend.

"Monsieur Bonbon" is known to many children in Europe, especially in France. He is the children's friend. His mission is to make children happy.

says B. C. Forbes' "Men Who Are Making America" (edition of 1916-17). He is an ardent motorist, and he always takes with him on his rides a big supply of specially made parian bonbons of the purest quality, and many other little gifts. He lavishes upon the village children of the Riviera his good things—"papillotes," the little ones call the candy.

"Monsieur Bonbon" is not a Frenchman; he is an American. He is James A. Stillman, for years the most powerful national banker in America, and a power second only to Morgan in shaping the financial destinies of the United States during the last years of the Nineteenth and the first decade of the Twentieth century, declares Mr. Forbes.

Interesting to Archeologists.

Leading archeologists from all over Italy are gathering at Sorrento, near Naples, sent thither by news of a discovery which promises to throw much light on early Greek history. As the result of casual digging by a local farmer, it is believed to be a Greek temple, town of Siroon has been discovered. Siroon was supposed to have been the sanctuary of the sea nymphs who were believed to have been destroyed by their jealous husbands, which is mentioned by the Greek geographer, Strabo, who lived at the same time; Homer and the contemporary of Herodotus. So far one of the city gates has been discovered. They are of enormous size, and the volcanic stone, which was used in their construction, has been exposed. A party of archeologists has been sent to investigate.

From Zealand, Aids Cupid.

The New Zealand government has taken the conclusion that many persons object to the marriage of their children on account of age are inadvisable. Since early marriages are discouraged by that state, the government has decreed that if a girl or boy is twenty-one years of age can't get her parents' consent to her marriage, she can take her father or mother before the Supreme court to give reasons for withholding of consent.

Portrait on Your Writing Paper.

The Paris smart woman is so smart unless she has the very smartest stationery. The latest craze is to have your portrait engraved at the head of your notepaper, the favorite color of which at present is cerulean. A variation is to have the portrait on the dainty lining of the envelope. Most stationery nowadays is scented.

Persons who want anything know that The News is the Want Medium in this vicinity. So read it.

LEETONIA TO HAVE GIRL SCOUT TROOP

Parent-Teacher Body Also Supports Child Welfare Camp.

Leetonia, June 14.—A special meeting of the Parent-Teacher association was held in St. Paul's Sunday school chapel Tuesday evening. It was presided over by the president, Mrs. Merl Stambaugh.

The committee on the Girl Scout movement was asked for a report, which was submitted by the chairman, Mrs. James Harrington, who said everything was in readiness for an organization.

Some difficulty was experienced in obtaining leaders, but by the arrival at home of two college students this obstacle was removed, and Myrna Wilderson, student at Columbia university, New York, has been chosen captain, and Martha Harrold, student at Radcliffe college, Neutnant.

Miss Harrold spoke highly in favor of Girl Scout organization, and at once arranged for a meeting on Friday evening in the South Side school building for all girls between 10 and 18. Those coming to the meeting expecting to become members must bear the written consent of their parents.

Mrs. Stambaugh, who has been elected on the county board of directors in the Child Welfare movement, opened a discussion on the subject, stating that the county was an assured thing, that a farm of 80 acres had been obtained.

Back Child Welfare Move. The tents and equipment have been ordered, but it will require an additional \$3,000 to carry on the work, of this amount Leetonia's quota is \$250. It was suggested and a motion carried that if the plans made for raising the amount fails, the Parent-Teacher association assume payment of the town's obligation.

At the close of the business session a concert was given under direction of Mrs. J. W. Moore. The participants were members of the school chorus, 25 in number. Instrumental music was also given, including a saxophone solo by James Degan and a violin solo by Paul O'Neil. Prof. W. W. Williams presided at the piano. Alice Kiernan gave a reading.

At the close of the meeting in view of the fact that Mrs. J. W. Moore is soon to leave Leetonia for her new home in East Palestine, where County Superintendent Moore will become superintendent of schools and in appreciation of what she has done for the Leetonia schools, Mrs. Stambaugh in behalf of the association presented her a beautiful gift.

One of the biggest baseball games in the history of the Leetonia team was played on the Leetonia field on Sunday afternoon between the local team and Massillon Rooters were enthusiastic but to no avail for the home team which lost out to Massillon by the score of 10-2.

Attend Commencement

Mr. and Mrs. C. R. Shontz left for Columbus Sunday where they attended commencement at the Ohio State university from which their son Donald, was graduated with special honors. Mr. and Mrs. Shontz will return to

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE consists of an Ointment, which quickly relieves by local application, and the internal Medicine, a Tonic, which assists in improving the General Health. Sold by druggists for over 40 Years. F. J. Cheney & Co., Toledo, Ohio.

Salem's Quality Tire Store

Your car is only as good as your tires. Put on VACUUM CUPS and make the old bus a real car.

VACUUM CUPS may make a little noise. Don't mind that, it is only the sound of safety, constantly reminding you of the best and safest tire money can buy.

CRUIKSHANK CRUBRO MUSTARD

The Best and Most For the Money

Folks who eat Crubro get most for their money. A pure, wholesome, delicious and appetizing mustard in a large, serviceable drinking glass container.

Use the mustard at every meal, save the glasses for table use. It's economical as well as healthful to eat all the time.

Order a Glass today—Insist on Crubro.

CRUIKSHANK BROS. CO.
Manufacturers PITTSBURGH, PA.

There's nothing like a long, invigorating walk to make a person feel good—but there's no use trying to walk in shoes that hurt your feet. Nor should you try to walk in shoes that are not made for walking.

In the first place, it's injurious to the feet and health, and you cannot expect shoes that are made for dress wear to stand the hard use that walking shoes get. For both health's and economy's sake, you should have a strong pair of oxfords, fitted so that they are absolutely comfortable. Then 'twill be a pleasure to "walk and be healthy."

Speidel's
GOOD SHOES ONLY

The Importance of Good Telephone Habits

If there is any one thing that reflects the spirit of an organization more than another, it is the service one gets over the telephone.

Your telephone habits determine the benefits you receive from the service to a greater extent than perhaps you realize.

When you crowd your words; when you let your voice fade toward the end of a sentence; when you hold the instrument too far from your lips; when you call a person and then make him wait until you are ready to talk—you do not get the results you secure by the practice of good telephone habits. You make a less favorable impression; you lose good will; and sometimes actual business.

Being a cooperative product, telephone service is at its best only when every person who has anything to do with making and using a connection does that part properly.

Every telephone call should be regarded in the same light that one regards a caller at the office or home in person.

The proper use of the telephone by everyone will make the service of greater value to all.

DEMPSEY EXPECTS WHALE OF BATTLE

And Champion Would Like To Hit Gibbons Squarely On The Chin.

Great Falls, Mont., June 14. — "It may be a general surprise to the world but the thing I would most like to do would be to hit him on the chin on July 4 and knock him into the same sort of a fit that I knocked Carpenter. Whether I can do it or not is a sort of question that I can't answer."

That was the very frank statement made today by Jack Dempsey. He amplified the statement a little as his copper-colored face lighted up with the excitement of the situation and what he had to say.

"I am not so extremely confident that I will be able to whip Mr. Gibbons in a round or so. I would rather not have any of the betting men who

KEEP WATCH FOR GREEN RAY

Majority of People of the British Isles on the Keen Lookout for Phenomenon.

The fad of the moment in England is watching for the green ray from the sun which is shot out for a second or two just as the sun disappears below the horizon. You may also see the sun's rim turn green or bluish-green; but it is the flash you should watch for. The Scots in the western Highlands know the green flash. They cherish a belief that any person who has seen it not only knows his or her own heart, but can see clearly into the hearts of others.

Tourists over the British isles are looking for the green ray and parties are seen seeking positions of vantage where they can get the best look at the parting orb. Observations are exchanged later and those who claim to have seen it are closely questioned by others. The green ray is not exactly a new discovery, but there is a great revival of interest in the alleged phenomenon. Doctor Molder, a Dutch scientist, has just written an elaborate book on the green ray, and says he saw it at Iffracombe in July, 1907. The late Lord Kelvin and Sir Henry Miers, of Manchester, are other witnesses.

In 1832 Jules Verne published a remarkable novel on this rare phenomenon. The heroine was a young Scottish girl, who was determined to see the ray. She saw it at last, from one of the caves of Staffa. Having seen it, she saw into her heart and the heart of her lover.

WORKED OUT AS HE PLANNED

Shrewd Mining Promoter Knew Just How Long Women Would Keep Secret He Imparted.

The psychology of selling was probably never applied better than in the disposal of the Weissmann Mining company during the copper boom of 1906 and 1907. Mr. Weissmann, who owned all the stock, gave a lawn party in the western city where he lived at the time. To this affair he invited all the men in the town who had any money worth his while, as well as their wives.

Taking aside the ladies one at a time, he confided to them over a glass of lemonade the following:

"I would like to see you make a little pin money without any risk, if I could trust you not to betray my confidence by taking your husband into my plans. I don't mind you buying 100 shares of Weissmann Mining stock, on which you will make 1,000 per cent, but if you should divulge this to your husband he might buy several thousand shares and interfere with my plans in the market."

Of course, every lady gave her sacred promise, and broke it before she went to bed.

Weissmann Mining, which was listed on an eastern market, was sold to the last share before noon the next day.

—Wall Street Journal.

Slipping in Saskatchewan. Recently in Saskatchewan, Saskatchewan, there was a home-brew contest for women only.

And all of these women were married women.

There is a law in Saskatchewan which permits the making of home brew only, and the women are given licenses to allow them to indulge in this industry. There is keen competition among the ladies.

What of the women who are not married? Would it not be worth the time of any ambitious and thirsty young man to seek these out so they could be married ladies and home-brew makers?

Doubtless it would—but the only unmarried ladies the tourist could find were in short skirts because of youth and not fashion!—Exchange.

GLACIER "GOT A MOVE."

Chased by a glacier which suddenly came to activity after having been inactive for years, a trio of Minnesota geological student climbers hurriedly abandoned camp. The students went to Glacier National park to study Heaven's Peak glacier, pitching their camp 50 feet from the end of the ice wall. They were awakened by a dull rumbling and with daylight they discovered a widening crack some 200 feet back on the glacier and noted that the wall of ice was advancing. They hurriedly moved and half an hour later the ice had covered their camp site. The ice moved about 200 feet down the valley, advancing about one foot a minute.

ISLAND NOW SHEEP PASTURE.

The island of Cuttyhunk, in Buzzard's bay, is to be turned into a sheep pasture. The head of the American Woolen company is now the owner of the greater part of Cuttyhunk, and this is a new venture of his in turning the island pastures over to sheep.

Neighboring islands have long been used for sheep pasturing, the animals running wild for the greater part of the year, with a little extra feeding during the winter.

NEW WEAPON OF WAR.

An "invisible force" whereby the United States would be rendered impregnable against attack by land, sea or air, is claimed by an inventor who is at Washington to lay his discovery before the secretary of war. By means of his discovery, the inventor says, an "invisible force" could be unleashed against a foreign foe, annihilating whole armies or navies by the pressing of a button. It is based on a natural law which he described as "penetrability, the first law of universal movement."

MOORE PRAISES HIS SUCCESSOR

Board Is Congratulated On Obtaining Leonard For Superintendent.

Supt. J. W. Moore, who will sever his connection with the County Board of Education Aug. 1, has the following to say of his recently elected successor, H. C. Leonard:

"Mr. Leonard is 35 years old, was born in Stark county, was district superintendent there four years, served as district superintendent in Columbiana to fill the vacancy created by the resignation of Mr. Hoopes, was a soldier in the World war, a graduate of Mt. Union college, and is married, his wife, formerly Miss Mary Butcher, of this county, being a teacher in the Lisbon High school. They are the parents of two fine children.

"Mr. Leonard has been superintendent of the Minerva High school for the past four years and has made a fine record there. The board is to be congratulated in obtaining him as county superintendent as he is well qualified for the position."

In order to accept a position in the executive branch of the Cleveland schools, Prof. E. E. Smeltz, assistant county superintendent for the past year, tendered his resignation. A successor will be appointed at the coming meeting.

BUNKER HILL

The Children's day program was given at the Bunker Hill church Sunday evening. A large crowd enjoyed the program which was well rendered.

Little Willard Thomas is suffering with the measles.

Mrs. Lula Cronick, who is ill at the home of her daughter Mrs. J. Campbell, remains in a very serious condition.

Clyde Elder broke his arm Sunday morning while cranking his machine. He went to the Central Clinic hospital, Salem, where an X-ray picture was taken and the fracture reduced.

Little Lois Stanley, who was quite sick for a few days last week, is again well.

Mr. and Mrs. Christ Martig entertained Mr. and Mrs. Jerry Clark and the Faloon children from Mt. Union Sunday.

Mrs. Ellen Elder is staying at the home of her son Clyde Elder for a while.

J. L. Cronick and Kay Stanley went to North Randall Saturday to attend a sale of the State Holstein association which was held Thursday and Friday.

James Chamberlains have moved into their new home.

Miss Nellie Early of Alliance is spending this week at the home of Larry Cook.

Cadiz — Cadiz residents claim that the cost of dying is rapidly increasing, as cemetery lots have advanced from \$10 each to \$50 and \$60.

PESKY BED-BUGS

Bedbugs lay an average of seven eggs per day. Under favorable conditions they hatch in five days of which two-thirds are females. They mature to adult size and are capable of laying in four weeks. How many bedbugs would you have in a year if you left one female or egg unmolested for one year?

To rid the pesky bedbug, you readily see how necessary it is to use a preparation that will kill the eggs as well as the live ones. P. D. Q. has been demonstrated by the leading Hospitals, Hotels and Railroad Companies that this is the safest and most economical way to stop future generations of bedbugs, roaches, fleas and ants to use the new discovery Pesky Devil's Quietus "P. D. Q."

A 5c package of P. D. Q. makes a quart, enough to kill a million bedbugs, roaches, fleas and cotes and at the same time destroy their eggs.

Impossible for them to exist when P. D. Q. is properly used. Free a patent spout in every package to get the pesky devils in the hard-to-get-at places and save the juice.

P. D. Q. is not an insect powder, no muss or dust, does not rot or burn the bedding.

P. D. Q. for family use 5c. Hospitals \$2.50 makes five gallons. P. D. Q. can also be purchased in sealed bottles, double strength, liquid form.

Genuine P. D. Q. is never peddled.

Sold by J. H. Lease Drug Co. and other leading druggists.
